**PART II—CALCULATION OF EXCISE DUTY PAYABLE IN
RESPECT OF EXCISABLE GOODS AND SERVICES WHOSE
EXCISE DUTY IS EXPRESSED IN PERCENTAGES**

1. Calculation of excisable duty payable.

The excise duty payable by a person in respect of excisable goods or services whose excise duty is expressed as percentages shall be calculated using the following formula—

$$A \times B$$

Where,

A is the value of the excisable goods or the excisable service; and

B is the rate of excise duty applicable to the goods or service.

2. Determination of value of excisable goods and services.

(1) The value of an excisable good shall be the normal ex-factory price of the good exclusive of any tax on that good.

(2) The normal ex-factory price of the good shall include raw material costs, manufacturing costs, labour costs, profit margin, bank charges and interest and all other costs, charges and expenses incidental to the factory, production and sale.

(3) The value of an excisable service shall be the price paid or payable by the consumer of that service excluding value added tax chargeable under the Value Added Tax Act and excise duty chargeable under this Act.

(4) In the case of non-arm's length transactions, the normal ex-factory price shall be the price at which the transaction would have occurred in the ordinary course of business between the person liable to excise duty and an independent person dealing at arm's length and, in cases where the price cannot be determined, the price shall, subject to this Act, be decided by the Commissioner.

(5) A sale in the open market between a manufacturer and a buyer independent of each other presupposes—

- (a) that the price is the sole consideration;
- (b) that the price is not influenced by any commercial, financial or other relationship, whether by contract or otherwise, between the manufacturer or any person associated in business with him and the buyer; and
- (c) that no part of the proceeds of the subsequent re-sale, use or disposal of the goods or services will accrue either directly or indirectly to the manufacturer or any person associated with him.

(6) Notwithstanding this Act, where the Commissioner is satisfied that an arrangement has been entered into or carried out where—

- (a) a person has obtained an excise duty benefit in connection with the arrangement; and
- (b) having regard to the substance of the arrangement, it is concluded that the person, or one of the persons, who entered into or carried out the arrangement did so for the sole or dominant purpose of enabling the person to obtain the excise duty benefit,

the Commissioner may determine the liability of the person who has obtained the excise duty benefit as if the arrangement had not been entered into or carried out, or in a manner as in the circumstances the Commissioner considers appropriate for the prevention or reduction of the excise duty benefit.

(7) In this section—

- (a) “arrangement” includes an agreement, promise, or undertaking whether express or implied and whether or not enforceable, or intended to be enforceable, by legal proceedings, and a plan, proposal, course of action, or course of conduct; and
- (b) “excise duty benefit” includes—
 - (i) a reduction in the liability of a person to pay excise duty;
 - (ii) an increase in an entitlement of a person to a credit or refund;or

- (iii) any other avoidance or postponement of liability for the payment of excise duty.

(8) The value of an imported excisable good is the sum of the value of the good ascertained for the purposes of import duty under the laws relating to customs; and the amount of import duty payable on that good.

(9) The value of an excisable service is the amount exclusive of any tax and duty, paid or payable by the final consumer in consideration for the service.

(10) Where no amount is paid in consideration for the excisable service under subsection (9) or where there is an application of the excisable service to own use by the person providing the service, the value of the excisable service shall be the market value of the excisable service.

(11) The taxable value of money transfer services by cellular service providers, money transfer agencies and other financial service providers shall be the fees charged for a particular money transfer service transaction.
